Who uses EMO?

EMO customers come from all walks of life: business and personal. Each of them has strong reasons for choosing EMO. Consider these few examples and how they compare to your situation:

Individuals:

- Internet purchasers and payments
- Recent arrivals in US, struggling to get a foothold:
- Victims of fraud (don't want anyone to see their accounts numbers)
- Users of e-Currencies

Business:

- Law firm payables, instead of printing, signing, and mailing checks
- Businesses that do not want their account numbers exposed to possible fraud
- [Merchants](#) who rejected high transaction fees from other payment services
- Bulk payments to pay affiliates or sales people
- International businesses

We would welcome your business and your [feedback](#).
