

MAKING A DIFFERENCE One Person At A Time!

Detecting Health Concerns "Before" they become Health Problems!

A SIMPLE NON-INVASIVE, PAINLESS, ULTRASOUND SCREENING IS WHERE PREVENTION STARTS

VASCULAR EXAMS

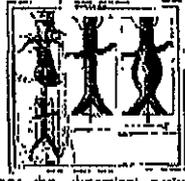

Carotid Artery Exam:

Scans the carotid arteries on both sides of the neck for fatty plaque buildup and blood clots. This is the #1 cause of Strokes, Stroke is the 3rd leading cause of death in America.

HSS: \$45.00

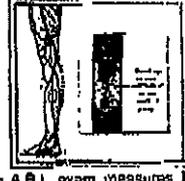

Abdominal Aorta Exam

Scans the abdominal aorta for Aneurysms. Aneurysms normally pose no symptoms until the point of rupture. Ruptured aortic aneurysms prove 75% to 80% fatal.

HSS: \$45.00

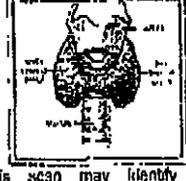

A. B. I. Exam

An A.B.I. exam measures blood pressure in both legs for hardening or narrowing of the arteries. This could be a good indicator of heart disease. (PAD) is the #1 reason for leg amputation.

HSS: \$45.00

Thyroid Exam

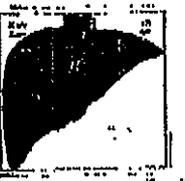

This scan may identify the presence of cystic type masses or tumors that can be very common on the thyroid. The thyroid regulates the body's metabolism and organ functions.

HSS: \$45.00

ABDOMINAL EXAMS

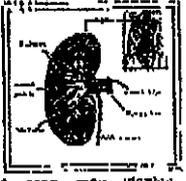

Liver Exam

This scan may identify the presence of cystic type masses or enlargements within the liver. Liver disease is the 4th leading disease related cause of death in America.

HSS: \$45.00

Left Kidney Exam

This scan may identify the presence of cystic type masses, tumors or enlargements within the kidney. This will also identify the presence of kidney stones. 20 million Americans have kidney disease.

HSS: \$45.00

Gallbladder Exam

This scan may identify the presence of unusual growth. This scan may also identify the presence of gallstones. Each year 400,000 - 600,000 surgeries are performed in the U.S.

HSS: \$45.00

Right Kidney Exam

This scan may identify the presence of cystic type masses, tumors or enlargements within the kidney. This will also identify the presence of kidney stones. 20 million Americans have kidney disease.

HSS: \$45.00

Spleen Exam

This scan may be useful in determining cystic type masses or enlargement of the spleen. The spleen is a crucial organ in the functioning of other organs in the body. Without the spleen, your body will lose some of its ability to fight infection.

HSS: \$45.00

TESTIMONIALS

My husband and I attended a "HEALTH SCREENING" in Houston, Texas. A very large Abdominal Aorta Aneurysm was discovered. Prior to this devastating news he had no symptoms, whatsoever! He had "Quadruple Bypass Heart Surgery" and only three days later he had the "AAA" surgery. Sincerely, Tom & Rita Garrett, Mandeville, LA

You came to our church and I had the complete vascular package. They detected a growth on the left side of my Thyroid. After taking the pictures to my doctor and many tests, my cancerous thyroid was removed. All three doctors I have been to could not ever feel it and the thyroid blood test showed normal. So again, I want to say "thank you". Bee Benson, Mason, Texas

I participated in a Health Screening held at our church. A mass was found in my left kidney. My physician verified a tumor on the left kidney. I was scheduled for surgery to remove the entire left kidney. Surgery was performed and the pathology lab reported the tumor was Renal Cell Carcinoma. I am recovering at home now and doing very well. Paul Bullard College Station, Texas
