Ms. Sharon Alexander
Associate General Counsel
Texas Department of Transportation

Austin, Texas 78701-2483

OR2012-15301

Dear Ms. Alexander:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 466425.

The Texas Department of Transportation (the "department") received a request for the letters of interest submitted by the companies that were awarded ten specified contracts.¹ You claim the submitted information is excepted from disclosure under section 552.104 of the Government Code. You also state the requested information may implicate the proprietary interests of third parties. Accordingly, you inform us, and provide documentation showing, you notified Gorrondona & Associates, Inc. ("Gorrondona"); Landtech Consultants, Inc. ("Landtech"); Woolpert, Inc.; Lina T. Ramey & Associates, Inc.; Pacheco Koch Consulting Engineers, Inc.; Lamb-Star Engineering, L.P.; Surveying and Mapping, Inc.; Teague Nall and Perkins, Inc.; Huitt-Zollars, Inc.; and Arredondo, Zepeda & Brunz, L.L.C. of the request and of their right to submit comments to this office as to why the requested information should not be released to the requestor. *See* Gov't Code § 552.305(d); *see also* Open Records Decision No. 542 (1990) (determining that statutory predecessor to section 552.305 permits governmental body to rely on interested third party to raise and explain applicability of exception to disclosure under the Act in certain circumstances). We have received comments

¹We note the department received clarification from the requestor regarding the request. *See* Gov't Code § 552.222(b) (stating if information requested is unclear to governmental body or if large amount of information has been requested, governmental body may ask requestor to clarify or narrow request, but may not inquire into purpose for which information will be used).

from Gorrondona and Landtech. We have considered the submitted arguments and reviewed the submitted information.

Section 552.104 of the Government Code excepts from required public disclosure "information that, if released, would give advantage to a competitor or bidder." Gov't Code § 552.104. The purpose of section 552.104 is to protect the purchasing interests of a governmental body in competitive bidding situations where the governmental body wishes to withhold information in order to obtain more favorable offers. *See* Open Records Decision No. 592 (1991) (discussing statutory predecessor). Section 552.104 protects information from disclosure if the governmental body demonstrates potential harm to its interests in a particular competitive situation. *See* Open Records Decision No. 463 (1987). Generally, section 552.104 does not except information from disclosure after bidding is completed and the contract has been executed. *See* Open Records Decision No. 541 (1990). However, in Open Records Decision No. 541, this office stated the predecessor to section 552.104 may protect information after bidding is complete if the governmental body demonstrates public disclosure of the information will allow competitors to undercut future bids, and the governmental body solicits bids for the same or similar goods or services on a recurring basis. *See id.* at 5 (recognizing limited situation in which statutory predecessor to section 552.104 continued to protect information submitted by successful bidder when disclosure would allow competitors to accurately estimate and undercut future bids); *see also* Open Records Decision No. 309 (1982) (suggesting that such principle will apply when governmental body solicits bids for same or similar goods or services on recurring basis).

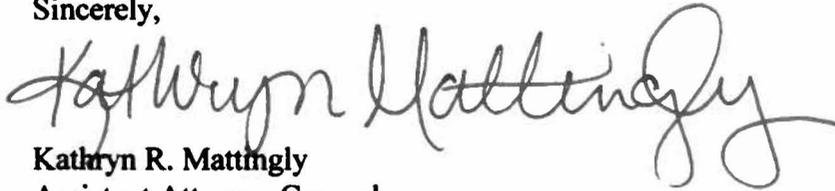

In this instance, you argue the disclosure of the submitted information "would harm [the department]'s competitive interests pertaining to the bidding process used in awarding such contracts for surveying services." You inform us "[d]isclosure of this information would undermine the quality of proposals and undermine competition among bidders." You state the department "solicits bids for professional services, including the same types of services at issue here, on a recurring basis." You assert the release of the information at issue "will undercut [the department's] negotiating position with respect to future procurements for such contracts." Based on your representations, we find you have demonstrated public release of the submitted information would cause specific harm to the department's interests in particular competitive situations. Therefore, the department may withhold the submitted information under section 552.104 of the Government Code. As this ruling is dispositive of the submitted information, we do not address the remaining arguments.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor. For more information concerning those rights and responsibilities, please visit our website at http://www.oag.state.tx.us/open/index_orl.php,
