

ATTORNEY GENERAL OF TEXAS
GREG ABBOTT

January 15, 2013

Mr. Kipling D. Giles
Senior Counsel
CPS Energy
P.O. Box 1771

OR2013-00891

Dear Mr. Giles:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 476545.

The City Public Service Board of the City of San Antonio d/b/a CPS Energy ("CPS") received a request for a specified bid tabulation. You claim the requested information is excepted from disclosure under sections 552.104 and 552.133 of the Government Code. We have considered the exceptions you claim and reviewed the submitted information.

Section 552.133 of the Government Code excepts from disclosure a public power utility's information that is "reasonably related to a competitive matter." Gov't Code § 552.133(b). The Texas Legislature amended section 552.133, which now provides in relevant part the following:

(a) In this section, "public power utility" means an entity providing electric or gas utility services that is subject to the provisions of this chapter.

(a-1) For purposes of this section, "competitive matter" means a utility-related matter that is related to the public power utility's competitive activity, including commercial information, and would, if disclosed, give advantage to competitors or prospective competitors. The term:

(1) means a matter that is reasonably related to the following categories of information:

...

(B) bidding and pricing information for purchased power, generation and fuel, and Electric Reliability Council of Texas bids, prices, offers, and related services and strategies;

(C) effective fuel and purchased power agreements and fuel transportation arrangements and contracts[.]

Id. § 552.133(a)(a-1)(1)(B), (C). Section 552.133(a-1)(2) provides fifteen categories of information that are not competitive matters. *Id.* § 552.133(a-1)(2).

You state CPS is a city-owned utility. You inform us the submitted information “includes price points and terms . . . included in a current power purchase agreement[.]” You assert release of the submitted information would result in competitive harm to CPS by providing its competitors with an advantage in the wholesale market and harm CPS’s ability to obtain solar energy at the best value. The information at issue is not among the fifteen categories of information expressly excluded from the definition of “competitive matter” by section 552.133(a-1)(2). Based on our review of the arguments and the submitted information, we find the submitted information relates to a competitive matter as defined under section 552.133(a-1). Thus, we conclude CPS must withhold the submitted information from disclosure under section 552.133 of the Government Code.¹

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor. ¹As our ruling is dispositive, we need not address the remaining argument against disclosure.
