Ms. Katie Lentz

Georgetown, Texas 78626

OR2013-18628

Dear Ms. Lentz:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 503529.

The Williamson County Sheriff's Office (the "sheriff's office") received a request for a copy of all medications belonging to a named decedent, including the dosage amounts. You claim the submitted information is excepted from disclosure under section 552.101 of the Government Code. We have considered the exception you claim and reviewed the submitted information.

Section 552.101 of the Government Code excepts from disclosure "information considered to be confidential by law, either constitutional, statutory, or by judicial decision." Gov't Code § 552.101. Section 552.101 encompasses section 181.006 of the Health and Safety Code. Section 181.006 states that:

For a covered entity that is a governmental unit, an individual's protected health information:

- (1) includes any information that reflects that an individual received health care from the covered entity; and
- (2) is not public information and is not subject to disclosure under [the Act].

Health & Safety Code § 181.006. Section 181.001(b)(2) defines “[c]overed entity,” in part, as “any person who:

(A) for commercial, financial, or professional gain, monetary fees, or dues, or on a cooperative, nonprofit, or pro bono basis, engages, in whole or in part, and with real or constructive knowledge, in the practice of assembling, collecting, analyzing, using, evaluating, storing, or transmitting protected health information. The term includes a business associate, health care payer, governmental unit, information or computer management entity, school, health researcher, health care facility, clinic, health care provider, or person who maintains an Internet site[.]

Id. § 181.001(b)(2)(A). You do not inform us the sheriff’s office is a covered entity for purposes of section 181.006 of the Health and Safety Code. Thus, we find you have failed to demonstrate that any of the submitted information is subject to section 181.006 of the Health and Safety Code. Accordingly, none of the submitted information may be withheld under section 552.101 of the Government Code on that basis.

Section 552.101 also encompasses the Medical Practice Act (“MPA”), subtitle B of title 3 of the Occupations Code. Section 159.002 of the MPA provides in part:

(a) A communication between a physician and a patient, relative to or in connection with any professional services as a physician to the patient, is confidential and privileged and may not be disclosed except as provided by this chapter.

(b) A record of the identity, diagnosis, evaluation, or treatment of a patient by a physician that is created or maintained by a physician is confidential and privileged and may not be disclosed except as provided by this chapter.

(c) A person who receives information from a confidential communication or record as described by this chapter, other than a person listed in Section 159.004 who is acting on the patient’s behalf, may not disclose the information except to the extent that disclosure is consistent with the authorized purposes for which the information was first obtained.

Occ. Code § 159.002(a)-(c). Information subject to the MPA includes both medical records and information obtained from those medical records. *See id.* §§ 159.002, .004. This office has concluded the protection afforded by section 159.002 extends only to records created by either a physician or someone under the supervision of a physician. We have also found when a file is created as a result of a hospital stay, all documents in the file relating to diagnosis and treatment constitute physician-patient communications. Section 159.001 of the MPA defines “patient” as a person who consults with or is seen by a physician to

receive medical care. *See id.* § 159.001(3). Under this definition, a deceased person cannot be a patient under section 159.002 of the MPA. *See* Open Records Decision Nos. 487 (1987), 370 (1983), 343 (1982). Thus, the MPA is applicable only to records related to a person who was alive at the time of diagnosis, evaluation, or treatment to which the records pertain. Upon review, we find the information we have marked constitutes medical records. Accordingly, the medical examiner's office must withhold the information we have marked under section 552.101 in conjunction with the MPA. However, we find the remaining information does not consist of records of the identity, diagnosis, evaluation, or treatment of a patient by a physician that were created by a physician. Therefore, none of the remaining information may be withheld under section 552.101 of the Government Code in conjunction with the MPA. As you raise no further exceptions to disclosure, the remaining information must be released.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
