Dear Ms Nivens:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 509016 (File No. 4396-001).

The City of Friendswood (the "city"), which you represent, received a request for the current agreement the city has with the Public Power Pool. You claim some of the submitted information is excepted from disclosure under section 552.136 of the Government Code. Additionally, you state release of the submitted information may implicate the proprietary interests of Public Power Pool, the Texas General Land Office ("GLO"), and Reliant Energy Solutions. Accordingly, you state, and provide documentation showing, you notified the third parties of the request for information and of its right to submit arguments to this office as to why the submitted information should not be released. *See* Gov't Code § 552.305(d); *see also* Open Records Decision No. 542 (1990) (statutory predecessor to section 552.305 permits governmental body to rely on interested third party to raise and explain applicability of exception in the Act in certain circumstances). We have received comments from the GLO. We have considered the submitted arguments and reviewed the submitted representative sample of information.<sup>1</sup>

---

<sup>1</sup>We assume the "representative sample" of records submitted to this office is truly representative of the requested records as a whole. *See* Open Records Decision Nos. 499 (1988), 497 (1988). This open records letter does not reach, and therefore does not authorize the withholding of, any other requested records to the extent those records contain substantially different types of information than that submitted to this office.

Section 552.104 excepts from required public disclosure “information that, if released, would give advantage to a competitor or bidder.” Gov’t Code § 552.104. This exception protects a governmental body’s interests in connection with competitive bidding and in certain other competitive situations. *See* Open Records Decision No. 593 (1991) (construing statutory predecessor). This office has held that a governmental body may seek protection as a competitor in the marketplace under section 552.104 and avail itself of the “competitive advantage” aspect of this exception if it can satisfy two criteria. *See id.* First, the governmental body must demonstrate that it has specific marketplace interests. *See id.* at 3. Second, the governmental body must demonstrate a specific threat of actual or potential harm to its interests in a particular competitive situation. *See id.* at 5. Thus, the question of whether the release of particular information will harm a governmental body’s legitimate interests as a competitor in a marketplace depends on the sufficiency of the governmental body’s demonstration of the prospect of specific harm to its marketplace interests in a particular competitive situation. *See id.* at 10. A general allegation of a remote possibility of harm is not sufficient. *See* Open Records Decision No. 514 at 2 (1988).

The GLO asserts it has specific marketplace interests in the information at issue because the GLO is authorized by statute to sell or otherwise convey power generated from royalties taken in kind. Util. Code § 35.102. The GLO advises under that authority, it has created the State Power Program, through which it bids on contracts for the right to sell electrical energy to public retail customers. The GLO states it competes with other private companies for the awards of these contracts. Based on these representations, we find the GLO has demonstrated it has specific marketplace interests and may be considered a “competitor” for purposes of section 552.104. *See* ORD 593.

The GLO contends the release of the submitted information would harm its marketplace interests because this information details the services and the prices the GLO charges for such services in order to provide the city with its electrical needs. The GLO further asserts, if its competitors had access to this information, they would “be able to use the GLO’s methods of delivery of electrical services and its pricing formula for such services as their own.” Thus, the GLO contends that allowing competitors access to the documents at issue will undermine its ability to compete in this marketplace. Based on the GLO’s representations and arguments, we conclude the GLO has shown that release of the submitted information would cause specific harm to the GLO’s marketplace interests. *See id.* Therefore, we conclude the city may withhold the submitted information under section 552.104 of the Government Code.<sup>2</sup>

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

<sup>2</sup>As our ruling is dispositive, we do not address remaining arguments to withhold this information.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor.
