GREG ABBOTT

November 21, 2014

Ms. Christina Weber
Assistant City Attorney
City of Arlington
P.O. Box 90231
Arlington, Texas 76004-3231

OR2014-21279

Dear Mr. Weber:

You ask whether certain information is subject to required public disclosure under the Public Information Act (the "Act"), chapter 552 of the Government Code. Your request was assigned ID# 543924 (Ref. No. W017038-090314).

The City of Arlington (the "city") received a request for data and/or technology breaches or attempted breaches on systems maintained by the city during a specified period of time.¹ The city claims the submitted information is excepted from disclosure under section 552.139 of the Government Code. We have considered the exception the city claims and reviewed the submitted representative sample of information.²

Section 552.139 provides, in part:

¹We understand the city sought and received clarification of the information requested. See Gov't Code § 552.222 (providing if request for information is unclear, governmental body may ask requestor to clarify request); see also *City of Dallas v. Abbott*, 304 S.W.3d 380, 387 (Tex. 2010) (holding that when a governmental entity, acting in good faith, requests clarification or narrowing of an unclear or over-broad request for public information, the ten-day period to request an attorney general ruling is measured from the date the request is clarified or narrowed).

²We assume the "representative sample" of records submitted to this office is truly representative of the requested records as a whole. See Open Records Decision Nos. 499 (1988), 497 (1988). This open records letter does not reach, and therefore does not authorize the withholding of, any other requested records to the extent those records contain substantially different types of information than that submitted to this office.

(a) Information is excepted from [required public disclosure] if it is information that relates to computer network security, to restricted information under Section 2059.055 [of the Government Code], or to the design, operation, or defense of a computer network.

(b) The following information is confidential:

(1) a computer network vulnerability report; [and]

(2) any other assessment of the extent to which data processing operations, a computer, a computer program, network, system, or system interface, or software of a governmental body or of a contractor of a governmental body is vulnerable to unauthorized access or harm, including an assessment of the extent to which the governmental body's or contractor's electronically stored information containing sensitive or critical information is vulnerable to alteration, damage, erasure, or inappropriate use[.]

Gov't Code § 552.139(a), (b)(1)–(2). Section 2059.055 of the Government Code provides in part:

(b) Network security information is confidential under this section if the information is:

(1) related to passwords, personal identification numbers, access codes, encryption, or other components of the security system of a state agency;

(2) collected, assembled, or maintained by or for a governmental entity to prevent, detect, or investigate criminal activity; or

(3) related to an assessment, made by or for a governmental entity or maintained by a governmental entity, of the vulnerability of a network to criminal activity.

Id. § 2059.055(b). The city states the submitted information consists of reviews, reports, daily activity, system scans, evaluations, and assessments of the city's general information technology controls and wireless networks. The city asserts these records reveal technical details of particular vulnerabilities of the city's computer network. Based on the city's representations and our review of the submitted information, we conclude the city must withhold the submitted information under section 552.139 of the Government Code.

This letter ruling is limited to the particular information at issue in this request and limited to the facts as presented to us; therefore, this ruling must not be relied upon as a previous determination regarding any other information or any other circumstances.

This ruling triggers important deadlines regarding the rights and responsibilities of the governmental body and of the requestor. Sincerely,

David L. Wheelus
